members prior to the end of April. The current strategy highlights out-of-school youth referral partnerships

for youth after graduating high school; and youth ages 18-24 not attending school. In school youth strategy would target rural schools without existing school work-based learning programs, as well as alternative schools.

• WIOA Performance metrics were shared from PY22 and 1<sup>st</sup> and 2<sup>nd</sup> quarter of PY23. Discussion around credential attainment occurred. For the local plan purposes, Eric shared that he would suggest negotiating for a lower than state average goal for credential attainment but be willing compensate by increasing goals in areas with consistent performance that exceeds negotiated rate, such as median wage.

Meeting adjourned at 4:10 pm.
